EARMARK DECLARATION

HON. DANA ROHRABACHER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 14, 2009

Mr. ROHRABACHER. Madam Speaker, pursuant to the requirements of the Republican Conference of the House, I am submitting the following information regarding earmarks I received, which were included in the reported version of H.R. 3183, the "Energy and Water Development and Related Agencies Act of 2010."

Requesting Member: Congressman DANA ROHRABACHER (CA-46)

Bill Number: H.R. 3183

Name of Project: Long Beach Desalination Research and Development Project

Account: Bureau of Reclamation, Water and Related Resources

Legal Name of Requesting Entity: Long Beach Board of Water Commissioners

Address of Requesting Entity: 1800 E. Wardlow Road, Long Beach, CA 90807

Description of Request: I received \$100,000 for Long Beach Water's Desalination Research and Development Project. Long Beach desalination represents the federal government's national interest in making desalination of seawater a viable, cost-effective and environmentally responsive option for supply reliability along the coast of California. Seawater desalination will not be seen by The Congress, the California State Legislature, regulatory agencies, private sector interests or the public as a viable, cost effective and environmentally responsive option for municipal water supply reliability in the United States until advances are made and existing processes optimized in on-going research and development, funded through programs like the Long Beach Desalination Project.

The project is a constructed, large-scale, fully operational seawater desalination research and development facility located in urban/coastal Southern California. The research conducted at this facility is the most important and advanced analysis being conducted anywhere in the nation at this time, to include facility design and construction, permitting, operations, water quality, distribution system integration and alternative, sub-ocean floor intake and outfall systems. It is my understanding funds will be used for Ultra Violet & Chlorine Dioxide research; post-treatment corrosives testing and analysis: under ocean floor intake and discharge demonstration system research, and site restoration. It is my understanding a 50% match share will be provided by the board of water commissioners.

Requesting Member: Congressman DANA ROHRABACHER (CA-46)

Bill Number: H.R. 3183

Name of Project: Santa Ana River Mainstem, CA

Account: Army Corps of Engineers, Construction

Legal Name of Requesting Entity: County of Orange, CA

Address of Requesting Entity: 300 N. Flower St., Santa Ana, CA 92703

Description of Request: I received \$52,193,000 for Orange County's Santa Ana River Mainstem project. The Santa Ana River Mainstem Project including Prado Dam (Project) was authorized under the Water Resources Development Act (WRDA) of 1986,
